

Plotting a CAMEO Record to the MARPLOT

Step 1 - Locate your map position

1. Go to List on the menu bar
2. Select Search
3. Set your Search Criteria, e.g.:
 - in the Search for Objects field, select “names that start with...”
 - in the Layer(s) to Search field, select “individual layer” and “roads”
 - in the Maps to Search field select “Maps in View”
4. In the field to the right of “names that start with...” enter the street you wish to find
5. When MARPLOT displays a list of map objects that meet your search criteria, select and highlight the one you want
6. If you are looking for a certain address along that street, click on the Addresses button. This will display the list of addresses available for the street.
7. Select the address range you want and click on the Show and Zoom button. This will take you to the map position.

Step 2 - Place your object on a map layer (plot its position)

1. Unlock the map layer where the object will appear
 - Go to List on the menu bar
 - Select Layer List
 - Locate the layer you plan to use, e.g., CAMEO Facilities
 - Click on the padlock symbol at the left side of the field to unlock it
 - Click on the OK button. This will return you to the map position you located above.
2. Check the address ranges for the street you have selected
 - Make sure the map object (street) is marked by highlighting boxes
 - Go to Objects on the Menu bar
 - Select Segment Settings and check to see which side of the street has the address you want.
 - Click on the OK button to return to the map
3. Select the Symbol tool (fat plus sign) from the tool bar at the left of the screen
4. Point to the position where you want the object to appear and click on the spot
5. Verify the information displayed on the Object Settings screen
6. Click on OK to place the object icon on the map

Step 3 - Link the object to a record in CAMEO

1. Go to Sharing on the Menu bar
2. Select Go to CAMEOfm (If you are using CAMEO Windows, select Go to CAMEO.)
3. Find the CAMEO record you want to appear on the map and highlight it on the browse screen or bring up the entire record
4. Go to the Sharing menu
5. Select Go to MARPLOT
6. Go to the Sharing menu in MARPLOT
7. Select CAMEO and select Link Object on the submenu. This will return you to CAMEO and the record you previously selected.
8. Click on Link to MARPLOT on the menu bar at the top of the screen

You're done!
